## 2<sup>nd</sup> ANNOUNCEMENT

---

Dear Colleagues,

This is the **Second Announcement** for the **16<sup>th</sup> International Luminescence and Electron Spin Resonance Dating conference (LED2021)**.

Firstly, we would like to sincerely thank all colleagues for the **continuous and positive expressions of interest** shown towards the conference ever since the First Call was announced this past February.

Secondly, we would like to inform all interested colleagues that planning for the conference is continuing and we will soon finalise the digital platform that we will use for the event. Once this is done and we can assess costs, we will be able to set the **Registration Fee** for the conference. However, as indicated previously we aim to keep these costs to a minimum, so we hope that money will not be a barrier to anyone participating in **LED2021** who wishes to do so.

We are happy to announce that **Abstract Submission** is **NOW OPEN!!**

We welcome abstracts either for **talks** or **posters** under the **nine broad themes** defined for the conference. Please note that because of the **large number of time zones across which delegates will be participating in the conference** we envisage that the **majority of talks will be pre-recorded** so that they can be viewed at any time during the event. We will then use the time we have together online for live discussions.

The **Abstract Submission deadline (4<sup>th</sup> June)** is rapidly approaching. Please visit the [conference's website](#) for detailed information on how to correctly **submit** and successfully **upload your abstract**.

When submitting abstracts, we ask colleagues to use the **Abstract Template** available for download on the [conference's website](#). Submission of abstracts **will only be via the Abstract Submission Portal**, which is now fully operational. You can locate it at the bottom of the [Abstract Submission Section](#). Each delegate may only submit **ONE abstract** which they must present themselves (either as a poster or a talk).

Please feel free to forward this message to any colleagues you think may be interested. And also, do not forget to use the hashtag **#LED2021** when sharing across Social Media.

**From the LED2021 International Scientific Organising Committee:**

*Lee Arnold, Andrzej Bluszcz, Regina DeWitt, Geoff Duller, Christophe Falguères, Mayank Jain, Gloria I. López, P. Morthe kai, Naomi Porat, Sumiko Tsukamoto, Liping Zhou*

IMPORTANT DATES

Abstract Submission Deadline:	4 June 2021
Online Conference:	13-17 September 2021
