

## News E-mail!

Dear colleagues,

Please be aware that participants interested in hosting the **next LED International Conference** will be given the opportunity to **present their proposals** during the [LED2021 Business Meeting](#) on **Wednesday 15 September 2021** during Block C of the [Programme](#) (15:30 - 16:15 UTC).

We welcome **short 5-minute presentations** that will be **broadcasted live** during this online meeting session. All potential candidates should have their presentations ready by Wednesday 15 September 2021 at 12:00 UTC. No pre-recorded presentations are necessary.

In order for us, **the LED2021 International Scientific Organising Committee**, to be able to organise the Business Meeting schedule, we will need to know how many bids will be presented live. **We urge all interested candidates to express their interest on a short email to [conference@led2021.org](mailto:conference@led2021.org) by Tuesday 14 September 2021 at the latest.**

To continue with the periodicity of the **LED International Series** and avoid clashing with other main international meetings normally attended by numerous members of our **LED Community**, the current LED International Scientific Committee proposes the **next LED** to be in **2023**.

We understand that this means the timeframe to organise **LED2023** is cut short by 1 year, but we are sure the future host will understand the extraordinary circumstances that led to the postponement of LED2020 and organisation of LED2021. Moreover, none of us knows what the future will bring us regarding the state of World biosecurity and the future developments of COVID-19. We all hope for an end to this pandemic, the full return of face-to-face events, the opening of country borders, and the normalisation of international travel, but only the future will tell.

**Please continue to check the [LED2021](#) website for THE LATEST information.**

We are really looking forward to seeing some exciting bids at the Conference!

Take care and stay safe.

All the best,

**LED2021 International Scientific Organising Committee**
